Fittings

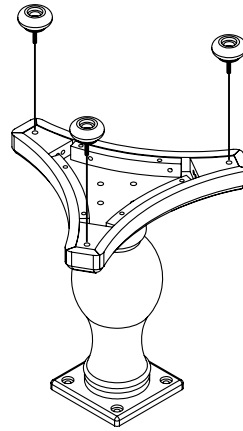

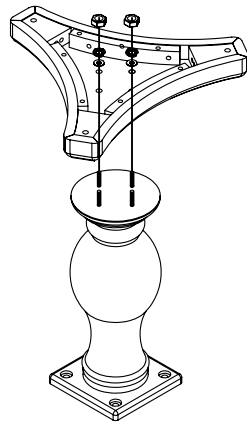

FX8

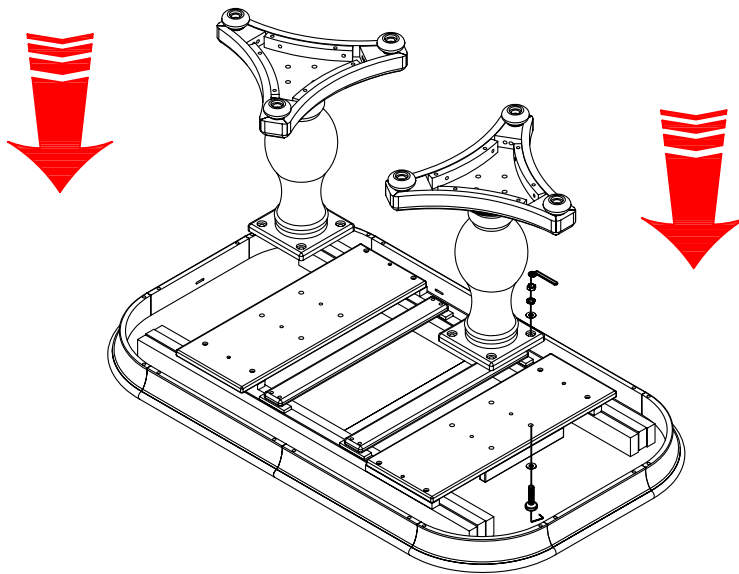

GX8

HX8

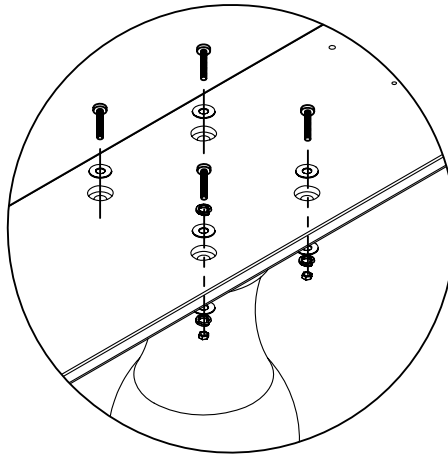

Step 2 -Put the table top upside down,locate the pedestals onto the underside of the table top.Align the legs as shown below.Ensuring that the dowels align to holes in the table top.

Step 3 -To secure the pedestals,use the eight bolts(E)inserted through the pilot holes down through the holes in the top of each pedestal together with the washers(G&H).Secure washers and nuts onto the bolts from the underside of the table and tighten all bolts using the Allen key and spanner provided.Secure the sliding table tops together,using the spring clips on the underside of the table.Refer to step 1 and step 4 for instructions on extending your table.

Fittings

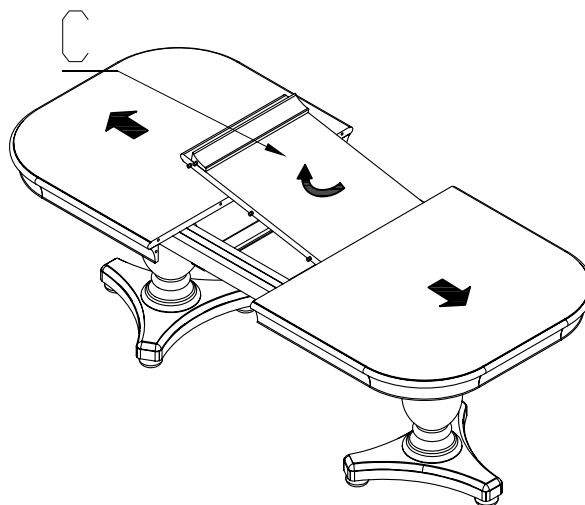

-  EX8
-  FX8
-  GX16
-  HX8

NOTE

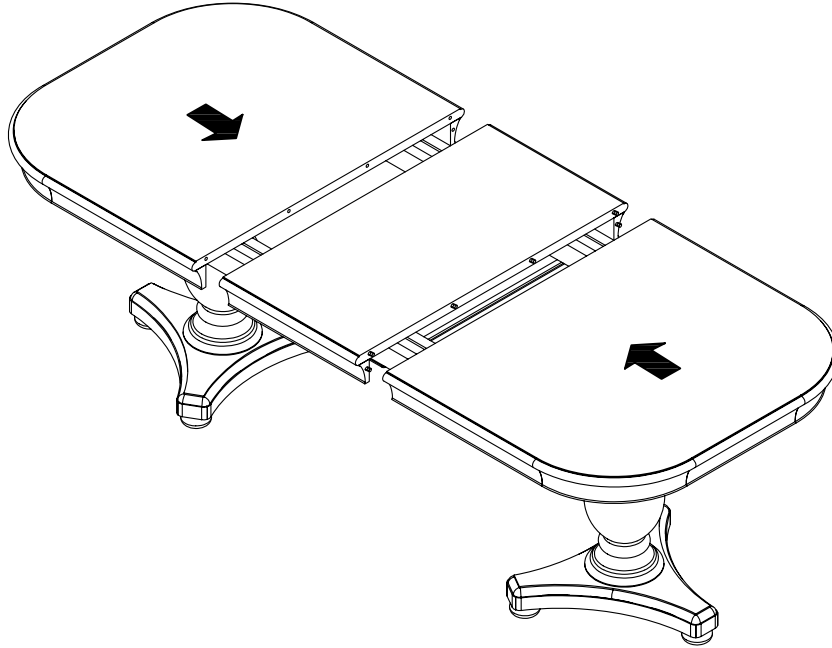

This view is shown with the table top removed for clarify

Step 4 -To extend the table,firstly ensure that the spring clips on the underside of the table are undone and the table leaves are pulled apart to their maximum.Carefully lift the leaf from inside the table top and then fold the skirts down as shown in the diagram below.

Step 5

-Locate the extension leaf between the table leaves. Fold down the skirts on the leaf as per the diagram below. Finally push the main leaves back together ensuring that the pins locate into the holes. Secure all tops together, using the spring clips on the underside of the table to remove the extension, simply perform the procedure in reverse, stowing the extension under the table top. The assembly now is completed.
